Afterroom Coat Hanger is a simple rack for coats, clothes or crazy hats. Made by some of our favourite designers, the Stockholm-based designers at Afterroom.

Hung-Ming Chen and Chen-Yen Wei are powered by an intriguing interest in proportions, materials and cultures. We're proud to feature several of their designs in our AW14 collection, and the common thing for all of them is that they share the same qualities of simplicity, inspired by classic Scandinavian features.

This goes for the Afterroom Coat Hanger as well. It is simple inside out. Easy to mount on the wall and all screws are hidden inside the frame to emphasize the clean aesthetic.

Besides being really warm and nice people, Hung-Ming Chen and Chen-Yen Wei are two really talented designers. They hail from Taiwan, but work from their studio in Stockholm.

Their design philosophy pivots around simplicity and honesty. And when asked to elaborate they say, "We often describe ourselves as advocates of time on a mission to create beautiful products. Products, which will only get more valuable as time passes by. It's design you can grow old with".

We hope you will.
