**ISKOS-BERLIN ON THE DESIGN** "One of the most difficult and noble disciplines is to design without eccentricity. To create simple, well-functioning, almost ordinary objects that nevertheless have strong identities. We designed FIBER CHAIR to do just that with a clear sculptural language that refuses to compromise on comfort. It's a chair stripped of all unnecessary layers. The iconic form marries soft, embracing curves with an environmentally friendly wood fiber composite, giving FIBER CHAIR a distinctive tactile texture while also keeping it 100% recyclable."

### PROCESS

The wood and plastic composition is heated and poured into a mold that presses the chair's shell. The steel tube base is CNC-bent and powder coated.

### TYPE

Chair

### DESCRIPTION

Fiber chair is an all-round easily understandable chair, made of a new innovative shell material of recyclable plastic and wood fibers. With an eye for detail, every line and every curve has been relentlessly altered to balance maximum comfort with minimum space. With a vast palate of shell colors, premium upholstery and leather options, and four different bases, there is a FIBER CHAIR for any dining room, desk, conference hall, auditorium, or office. As the chair is made from natural materials, small variations in color and structure can occur.
